

Alteryx Designer Setup Guide

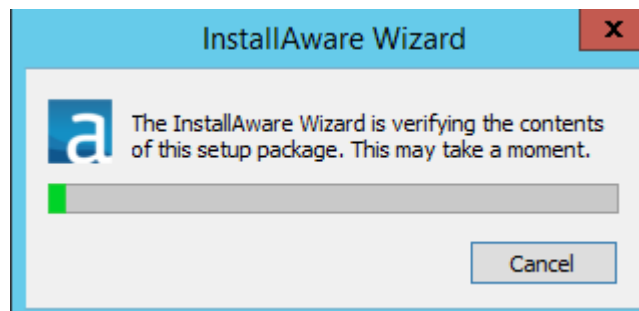

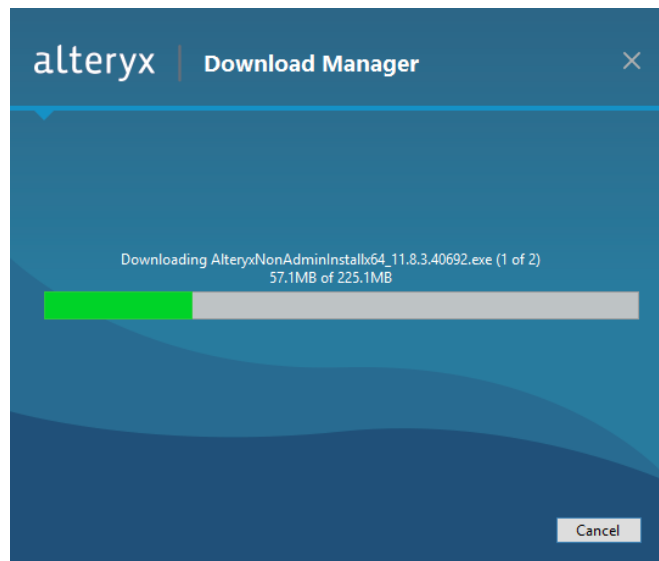

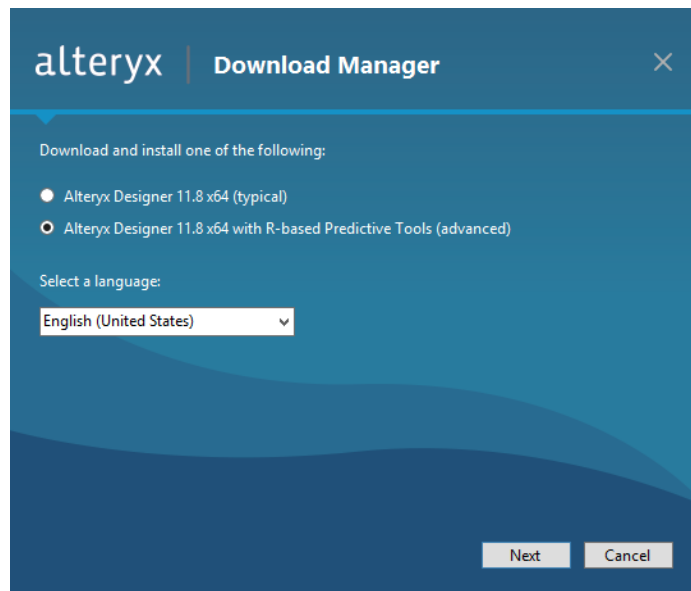

System Requirements:

Hardware: 8GB RAM, 20GB HDD

Step-1 Disconnect from your EY network and use personal hotspot to download the alteryx Since Ey Network Don't allow you to Download Trial Version.

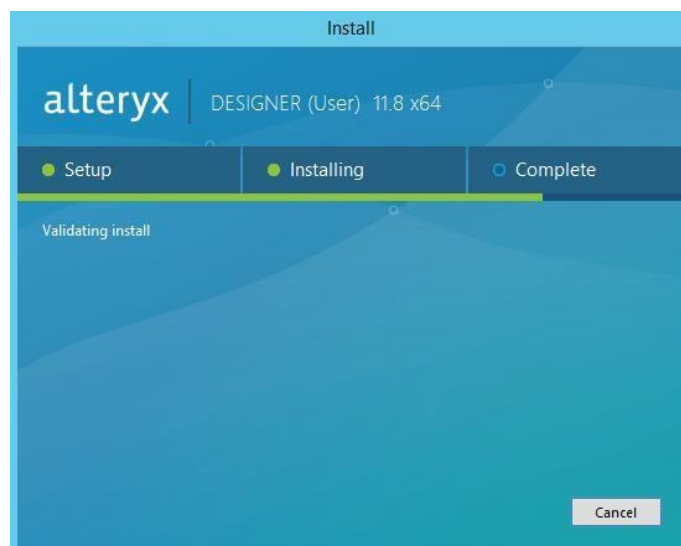

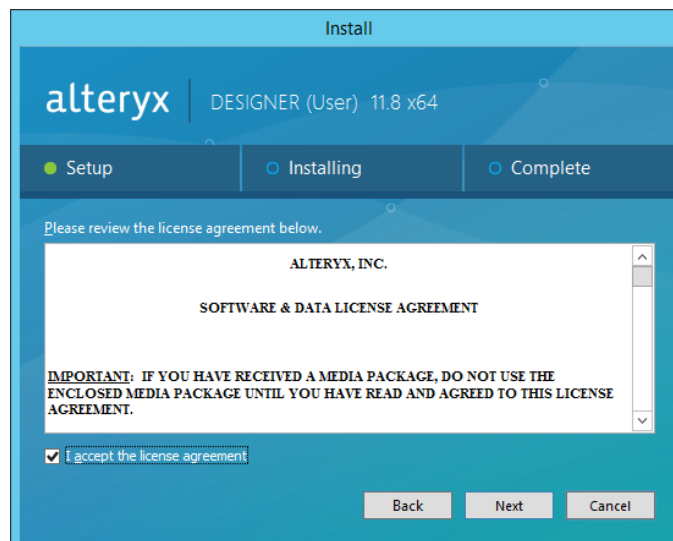

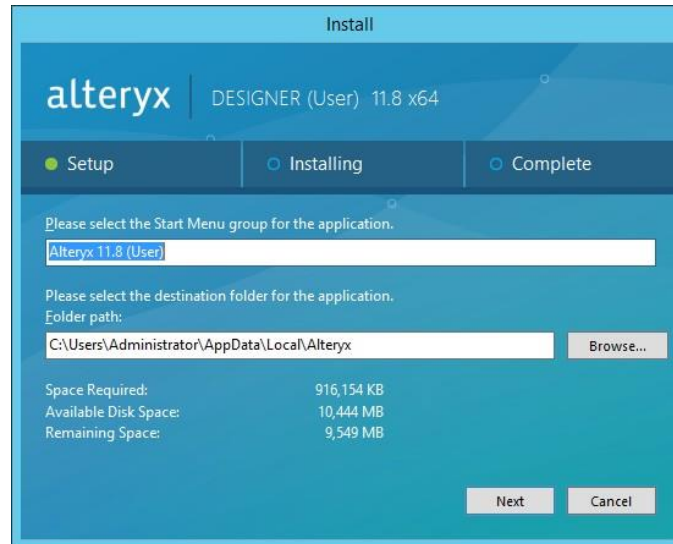

And then go to the [link https://www.alteryx.com/designer-trial/free-trial](https://www.alteryx.com/designer-trial/free-trial) And Download the 14 day trial version of alteryx.

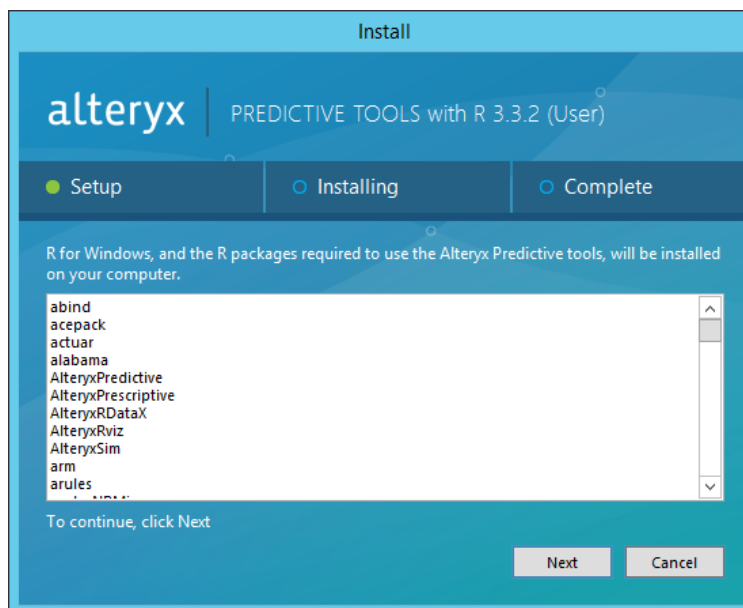

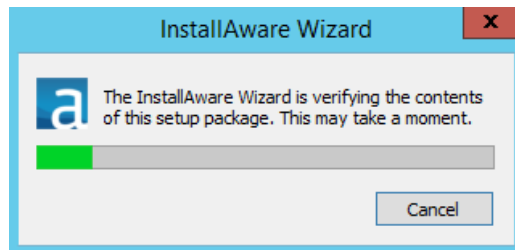

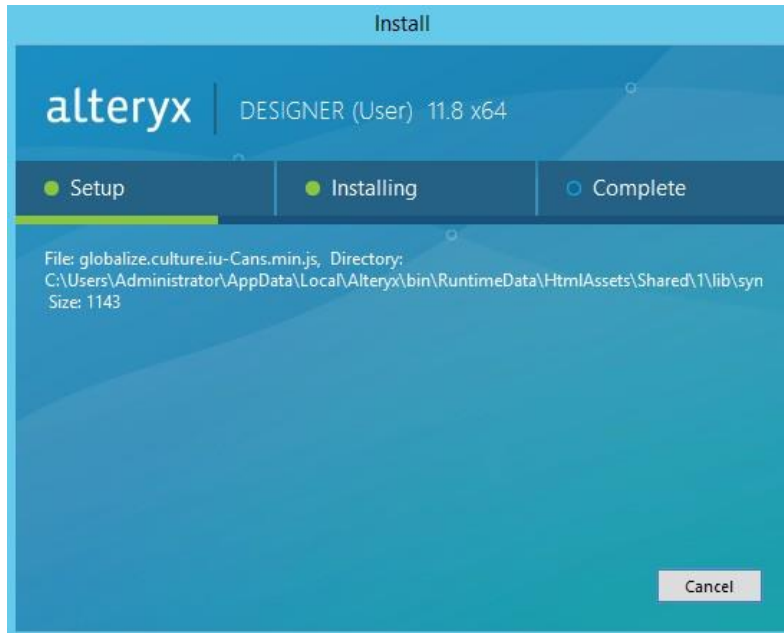

Step-2: Launch Alteryx Download Manager to Download Alteryx Designer with R-based Tools

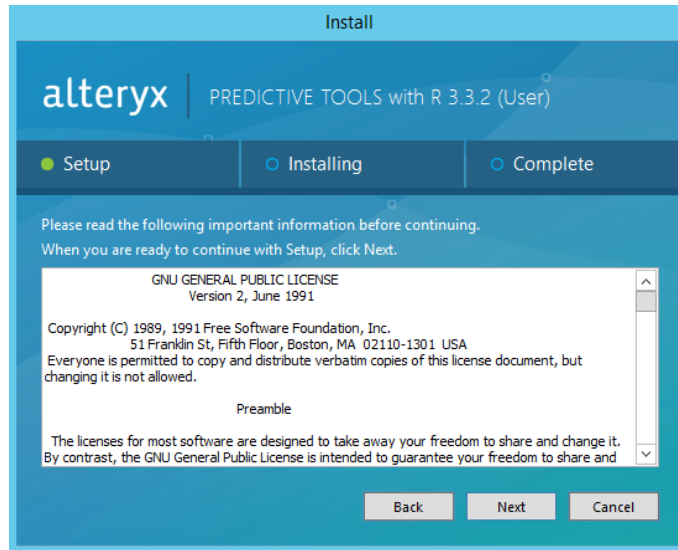

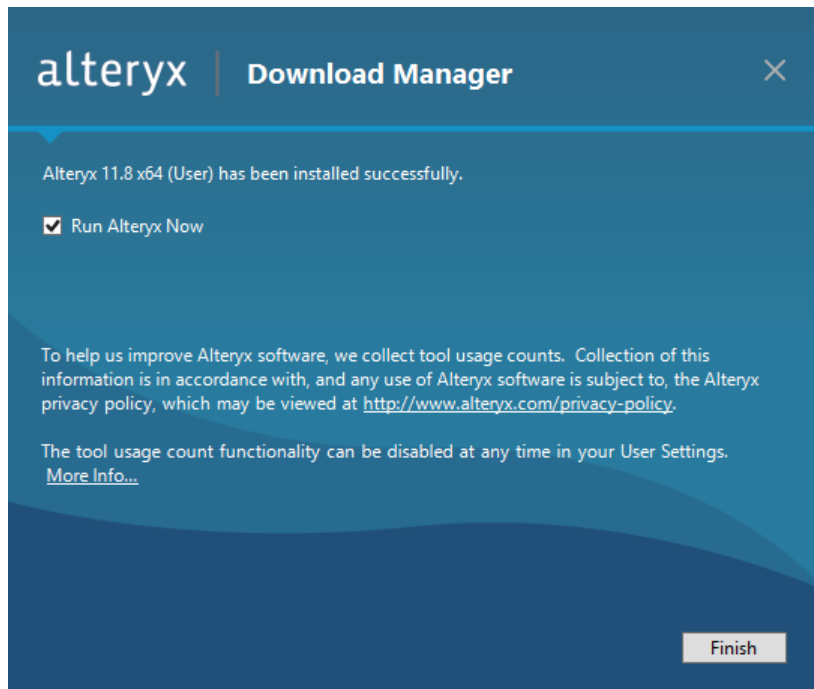

Step-3: Install Alteryx Designer (Install Wizard Automatically Starts Post Download Completion in Prev Step)

Just follow the on-screen instructions

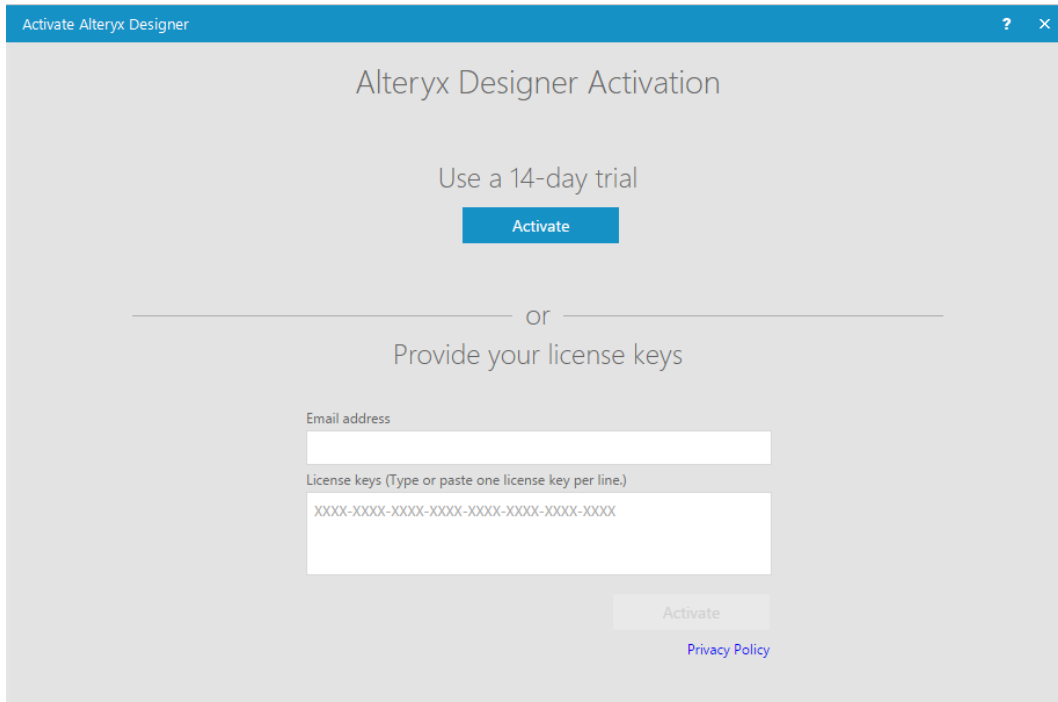

Installation Completed Successfully!

Step-4: Alteryx Designer Activation

- On the first launch of Alteryx Designer, product activation wizard is shown as below
- Click on Activate > Enter your email id > Activate > Enter your details > Activate
